PROFESSIONAL SUMMARY

Frontend Engineer with **3 years of experience** building **scalable, high-performance web applications** using **React.js, Next.js, and Redux Toolkit**. Specialized in **component-driven architecture, performance optimization, and user-centric UI/UX**. Proven track record of **boosting user engagement by 35%, achieving 100 Lighthouse performance score**, and delivering **responsive, production-ready applications**. Passionate about building **fast, scalable, and impactful digital products**.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript (ES6+), TypeScript.
Frontend & UI: React.js, Next.js, Redux Toolkit, Context API, Tailwind CSS, Material UI, Framer Motion.
Web & Performance: Responsive Design, Cross-Browser Compatibility, Performance Optimization, Web Vitals (LCP, CLS), Lighthouse.
Tools & AI Agents: Git, GitHub, GitLab, Webpack, ChatGPT, Claude, Copilot, Cursor.

WORK EXPERIENCE

Big Brand Bucket Pvt. Ltd. — *Apr 2024 – Nov 2025*

Software Engineer – Frontend — *Gurgaon, Haryana*

- Directed and **delivered 3 concurrent web applications** for a single client, **owning requirement analysis, Figma coordination, and frontend execution** to ensure scalable architecture and **consistent UX** and **on-time releases**.
- Engineered high-performance applications using **React.js and Next.js**, implementing **dynamic routing, advanced filtering, search systems, and role-based dashboards**.
- Boosted **user engagement by 35%** by optimizing rendering strategies, **reducing load times, achieving 100 Lighthouse score, and improving LCP to <2.5 seconds**.
- Enhanced UI systems by aligning with **Figma design updates,** ensuring **pixel-perfect layouts, design consistency,** and improved user experience across platforms.
- **Delivered mobile-first, responsive interfaces,** optimizing **cross-device compatibility, accessibility, and user flows**.

Cognizant Technology Solutions India Pvt. Ltd — *Aug 2022 – Feb 2024*

Jr. Software Engineer

- **Collaborated within a cross-functional team** to deliver an **Angular-based Attendance Management System**, replacing Excel workflows and improving efficiency by **30%**.
- **Owned the complete frontend UI development**, creating **clean, responsive, and user-friendly screens**, while **integrating REST APIs** to enable real-time attendance data retrieval and submission.
- **Executed a calendar-based attendance feature**, allowing employees to **view and track the last three months of attendance**, improving **transparency, usability, and employee experience**.

PROJECTS

Urban Stayz (Web App)

Technologies: JavaScript, React.js, Tailwind CSS, HTML5, Framer Motion

- Developed **"UrbanStayz,"** a **location-based PG discovery** platform using React.js, enabling users to search and explore PGs/rooms with real-time data, dynamic routing, and scalable component architecture.
- Implemented advanced features like **search, filters, and location-based listings**, along with a **responsive, user-centric UI**, improving property discovery flow and enhancing overall user experience by **25%**.

Tune Masters-Academy

Technologies: Typescript, Next.js, Tailwind CSS, Framer Motion

- Developed a music learning platform using **Next.js**, featuring structured course modules for various instruments with **intuitive navigation** and a scalable component-based architecture.
- **Enhanced user engagement by 40%** by implementing **responsive UI layouts and interactive animations using Framer Motion**, delivering a more engaging and seamless learning experience.

EDUCATION

Master of Computer Application (M.C.A.) — *Aug 2019 – Jul 2022*
Bharati Vidyapeeth's Institute of Computer Applications and Management

Bachelor of Computer Applications (B.C.A.) — *Aug 2015 – Jul 2018*
Institute of Information Technology & Management, GGSIPU
