SUMMARY

Frontend Developer with **3 years of hands-on experience** in building high-performance, scalable web applications using **React.js, Next.js,** Redux Toolkit, and **modern UI frameworks**. Specialized in component-driven architecture, clean and maintainable code, **REST API integration, and performance optimization**. Proven track record of improving user engagement, reducing load times, and delivering responsive, user-centric interfaces. Seeking to contribute to modern frontend ecosystems while building impactful and scalable digital products.

CORE SKILLS

Languages: HTML5, CSS3, JavaScript (ES6+), TypeScript.
Frontend & UI: React.js, Next.js, Redux Toolkit, Context API, Tailwind CSS, Material UI, Framer Motion.
Tools: Git, GitHub, GitLab, Webpack, Babel, Postman, Vercel.

WORK EXPERIENCE

Big Brand Bucket Pvt. Ltd. — *Apr 2024 – Nov 2025*

Software Engineer – Frontend — *Gurgaon, Haryana*

- Directed and contributed to three parallel website projects for a single client, **owning requirement analysis, Figma design coordination**, and frontend delivery to ensure consistent UX, **functional accuracy, and on-time releases**.
- Engineered scalable client-facing web applications **using Next.js and React, executing dynamic routing, advanced filtering, search functionality**, and role-based dashboards with a modular, maintainable code architecture.
- Enhanced multiple frontend pages by aligning **UI implementations** with updated **Figma designs, ensuring pixel-perfect layouts, improved visual consistency**, and seamless user experience across platforms.
- **Delivered mobile-first, responsive interfaces**, prioritizing clean UI/UX, intuitive navigation flows, and **cross-device compatibility** to improve accessibility and user satisfaction.
- **Achieved a 35% increase in user engagement** by streamlining frontend **performance, reducing load times, and optimizing** interaction flows across multiple web modules.

Cognizant Technology Solutions India Pvt. Ltd — *Aug 2022 – Feb 2024*

Jr. Software Engineer

- Collaborated with a cross-functional development team to build an **Angular-based Attendance Web Application,** replacing manual Excel tracking and **achieving a 30% improvement** in attendance monitoring efficiency.
- **Owned the complete frontend UI development**, creating **clean, responsive, and user-friendly screens**, while **integrating REST APIs** to enable real-time attendance data retrieval and submission.
- **Executed a calendar-based attendance feature**, allowing employees to **view and track the last three months of attendance**, improving **transparency, usability, and employee experience**.

PROJECTS

PG-Finder (Web App) — https://pg-finder-gray.vercel.app/

Technologies: JavaScript, React.js, Tailwind CSS, HTML5

- Built a location-based property discovery platform with search, filters, and responsive UI.
- Integrated real-time data fetch, dynamic routing, and custom components.
- Designed a UI that improved property discovery flow by **25%**.

Tune Masters-Academy — https://tune-masters-academy.vercel.app/

Technologies: Typescript, React.js, Next.js, Tailwind CSS, Framer Motion

- Boosted customer engagement by 40% with responsive layouts and interactive animations using Framer Motion.
- Built course modules for musical instruments with efficient navigation and engaging UI.

CERTIFICATIONS

Certificate of completion of "JavaScript course".

Certificate of completion of "ChatGPT course for work".

EDUCATION

Master of Computer Application (M.C.A.) — ***Aug 2019 – Jul 2022***

Bharati Vidyapeeth's Institute of Computer Applications and Management

Bachelor of Computer Applications (B.C.A.) — ***Aug 2015 – Jul 2018***

Institute of Information Technology & Management, GGSIPU
